District Selected to Offer New Summer Learning Program

The Wapato School District is excited to offer families a new summer learning program. DiscoverWorks is a free, full-day learning experience available to current kindergarten thru 8th grade students. The 20-day program will take place in the Wapato District from June 26-July 24. Enrollment/Registration is currently underway.

Each day, DiscoverWorks will combine daily instruction in reading and math with hands-on enrichment activities including arts and STEM, sports, and field trips. The program provides breakfast, lunch, and snacks in a safe and structured setting.

This year is the first time this program is being offered in Washington State and the Wapato District is one of just a handful of districts in the Yakima Valley selected to take part.

The free program is being made available thanks to grant funding from the Ballmer Group. Ballmer Group Co-Founder, Connie Ballmer says, "Summer programs are powerful drivers of student success." She adds, "Washington has been our home for a long time and we're excited for students to participate in this program, which has been very popular with kids and families."

The Wapato School District is encouraging families of all of our current kindergarten thru 8th grade students to consider registering them for this new, highly engaging learning opportunity. Families can access more information by visiting the [District's website](#) and clicking on "2026 Summer Learning" or by scanning the QR code below.
